

WE ARE HIRING

Cleaner – Data Centre & Construction Projects

Location: Various sites across the UK

Salary: Competitive, depending on experience

Travel: UK-wide travel required

The Role

We are looking for reliable and hardworking cleaners with *Construction Skills Certification Scheme* (CSCS) card to join our team on data centre and construction projects across the UK.

The role involves specialist cleaning of LV switchgear, electrical equipment and surrounding areas, ensuring installations are clean and ready for inspection, testing and handover.

This site-based role is ideal for someone with a strong work ethic, good attention to detail and experience working in busy construction environments.

Key Responsibilities

- Cleaning LV switchgear and associated electrical equipment under supervisor guidance.
- Removing dust, debris and packaging, ensuring equipment is ready for inspection and testing.
- Working safely and following all RAMS, site and health & safety requirements.
- Working alongside other trades while maintaining a clean and safe work area.
- Travelling to data centre and construction projects across the UK as required.

Requirements

- Valid CSCS card – essential.
- Construction site experience preferred.
- Electrical or LV switchgear cleaning experience is an advantage, but full training is available.
- Good understanding of health & safety.
- Reliable, punctual, detail-focused and willing to travel.
- Able to work independently and as part of a team.
- Professional attitude and good communication skills.

What We Offer

- Competitive pay and regular overtime.
- Full-time, permanent and long-term opportunities.
- Work on major data centre and construction projects.
- Travel and accommodation provided where applicable.
- Training and development opportunities.
- Work alongside experienced installation and commissioning teams.
